## Create a vision that attracts Strengthen your intrinsic power to create & innovate

### What You'll Gain:

An improved relationship with the inner dynamics of mind, heart, matter & possibility.

### Description:

If you can successfully envision, you can create. In this transformational development workshop you'll learn how to source personal creative power, master the ideation gap and enhance your ability to bring a vision or new innovation project to life. Become aware of the value of maintaining an inner focus to materialize your vision, fuel its journey and experience the fulfillment of your realization. Break through limits and clarify your vision independent of what you consider possible. Move from pre-supposition, history and circumstance to a purpose and energy pathway that embraces possibility. Begin to "see" & "sense" new opportunities for creativity and contribution. Instill committed action with personal fulfillment while engaging the deep creative stretching that progressive people & organizations need to do to balance intellectual bias and create a new future.

### What You'll Learn:

Learn to master your ability to create using natural inner resources & creative affinity through imagination, vision & energy, Improve the impact you have in creating your life and contributing to a collaborative vision in your organization.

### Outcomes:

- Consciously create a vision that mobilizes and attracts
- Learn the difference between creating & construction in terms of core dynamics
- Empower & align with the seven elements of the creative process
- Strengthen your ability to identify & overcome limitation
- Build trust & collaboration processes that empower team & partner commitment
- Manage the action phase more successfully & foster unexpected opportunity
- Stronger innovation teams & sustainable innovation

### Who Should Attend:

Executives, Managers, Leaders, Professionals, Project Managers, Teams & Business Units, Entrepreneurs
